

INTERNATIONAL CONFERENCE «RENORMALIZATION GROUP & RELATED TOPICS»

Friday, September 5

	Friday, September 5	
9h 30m	J Rodgers (<i>Brunel University</i>) Growing Networks	
10h 15m	B Tadic (<i>Jozef Stefan Institute, Ljubljana</i>) Transport Processes on Complex Networks	
11h 00m	<i>Coffee break</i>	
	Section A (Conference Hall)	Section B (Blokhintsev Hall)
11h 30m	A Dorokhov (<i>BLTP JINR, Dubna</i>) Light-by-light scattering contribution to a_μ within instanton model	A Sukhanov (<i>BLTP JINR, Dubna</i>), O Golubeva Effective action in Quantum generalization of statistical thermodynamics
12h 00m	V Skalozub (<i>Dnepropetrovsk National University</i>) Renormalization group relations and searching for Z' at LEP2	D Banerjee (<i>St. Xavier's College, India</i>) A Renormalization Group Study of Jump Phenomena in Non-linear Oscillators
12h 30m	M Chavleishvili (<i>International University "Dubna"</i>) Symmetry, analytic properties of amplitudes and "dispersion" results	R Mir-Kasimov (<i>BLTP JINR, Dubna</i>) Localized states of elementary systems and commutativity of the relativistic position operators
13h 00m	C l o s i n g
